

Hazardous Materials

Household Hazardous Materials are found in sheds, garages, basements, craft rooms, workshops or under kitchen sinks in many homes. Often these products are labeled with words such as: Caution, Warning, Danger, Poison, Flammable, Combustible or Corrosive.

Agricultural Hazardous Materials such as pesticides, herbicides and chemicals are found on both active and abandoned farms. Banned substances such as DDT, Chlordane, and Silvex, 2, 4-D will be accepted.

Business Hazardous Materials will be accepted from businesses identified as Very Small Quantity Generators (VSQG) and located within the participating Counties. Businesses must pay for their disposal costs, but may avoid on-site pick up fees. Eligible businesses may receive a 50 percent subsidy for disposal of pesticide wastes.

Farmers and residents of Calumet, Outagamie and Winnebago Counties may dispose of hazardous materials **free of charge**. Donations will be accepted.

Why Participate in this Event?

When disposed of improperly, household and agricultural hazardous materials can threaten the quality of our drinking water, increase the threat of algae bloom and threaten the safety of sanitation workers.

In addition, hazardous materials left around the house and garage pose an accidental poison risk to children and pets.

This program is sponsored in partnership by:

Calumet County UW Extension
